Face-Plate: Wilsonart® Photopolymer with Wilsonart Olive Legacy  
Back-Plate: Chemetal® Brushed Black Aluminum  
Text: Silver Text Foil

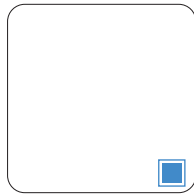

# Which shape inspires your design?

## Sign Collections

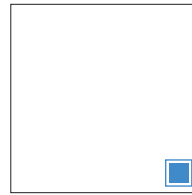

Designed to take the headache out of sign selection, our Sign Collections feature popular shapes and designs, and are available in a variety of materials and colors.

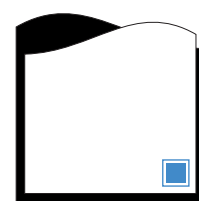

Manhattan™

Aspen™

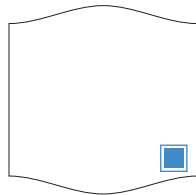

Phoenix™

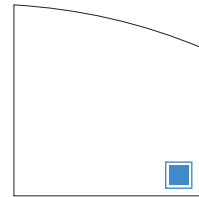

Barcelona™

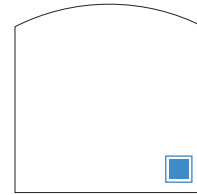

Boston™

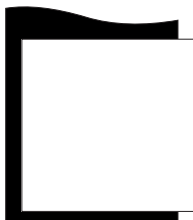

Savannah™

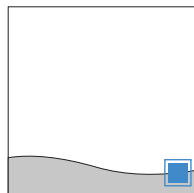

Sydney™

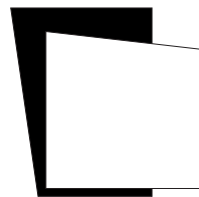

Florence™

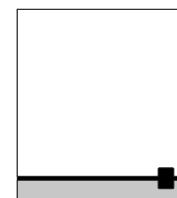

Seoul™

Sedona™

Zurich™

Santa Cruz™

Sign faces are in white, accents in gray and backplates in black.

# What sign types do you need?

## Sign Types

Our collections are available in different sign types for the different areas throughout your building. Explore some of our popular sign types below.

### Identification

Identification signs let people know where they are or identify an area of a building such as a conference room, lobby, or office.

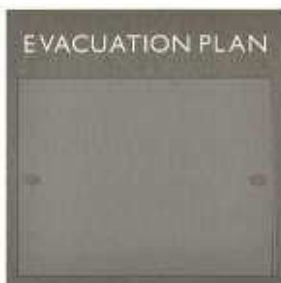

### Regulatory

Regulatory signs are critical because they are necessary to keep a building in compliance with the Americans with Disabilities Act and have specific requirements.

### Directional

Directional signs help people navigate a building. They label and point to specific areas within a building and are usually posted where someone is looking for direction to get them to their destination.

### Informational

Informational signs communicate information about an area of the building such as if a room is being occupied, if an area is designated as a shelter or other details that are helpful to know.

# What materials are right for you?

Different material options are best for different purposes, budgets and designs.  
We offer a variety to choose from so you can create a sign that works for your building.

## Rigid Vinyl \$

Our Rigid Vinyl signs are made of the same material as our Door + Wall Protection products for extreme durability. Lettering and braille are applied onto the sign, making it a two-piece construction in one standard thickness.

## Photopolymer PETG \$\$

Use Photopolymer to create vandal-resistant signs. These signs are formed as one-piece making it difficult to pry off lettering, while still providing raised text and imagery. The face can be painted to any color of your choosing to ensure a perfect match to your design.

## Metal \$\$\$

With a variety of pattern options, anodized aluminum makes for a great accent as a backplate to any sign.

## Printed \$\$\$

We can add a print, graphic or logo to your signs, giving you endless design options.

## 3Form® \$\$\$\$

Add 3Form® resins to your signs to incorporate stunning natural elements, textiles, graphic patterns, textures and metallics.

\*Price information given is based on a range for product price only, with \$ representing the most economical choice and \$\$\$\$ representing the most premium choice when comparing products of equal materials, finishes and options. Other cost considerations like shipping, taxes, minimum order charges, etc. are not accounted for in this range.

# Colors

# Specialty signs for specific needs.

When your signs need to do more than provide direction, we have sign options that allow for specific types of communication.

## LokTab™ Patient Information Notifier

LokTab allows you to visually communicate critical patient information to medial staff with customizable locking tabs to keep information secure where it matters most. Available with either 8 or 10 tabs, you can personalize LokTab by incorporating windows, document holders, whiteboards and graphics.

## Activity Calendar

Activity Calendars are a great way to let people know what's going on! Available in 2 different size options, clear windows let you showcase the events of the day and easily change them out as needed. Choose your colors, patterns and text options to coordinate your rigid vinyl calendar with your interior.

## Menu Boards

Easily change out menu options from clear windows on this rigid vinyl Menu Board that you can customize with colors, patterns and text options.

## Dimensional Characters

Add emphasis to your message with Dimensional Characters. We provide either a flat or raised appearance with two character thicknesses. A template comes with all orders for easy installation.

Showcase your artwork on  
our printed signs too!
